

BRILLIANCE HS

LYNX® BRILLIANCE HS is a metal-crosslinked, modified acrylic floor finish provides excellent lay down gloss and superior response to high speed burnishing. BRILLIANCE HS can be maintained with either conventional low-speed programs or infrequent (2-3 times a week) high speed burnishing.

DIRECTIONS (New or existing floors): Thoroughly strip floor with a floor finish remover. Rinse thoroughly with clean water. Apply a sealer base (optional) to worn floors or high traffic floors to improve wear-resistance and enhance gloss. Apply 2-4 coats of floor finish in uniform thin coats allowing time to dry thoroughly between coats. Allow for longer drying time in damp weather.

MAINTENANCE: Sweep as necessary. Damp mop or scrub lightly with a mild, neutral detergent. Spray buff or buff lightly with appropriate pad. Also excellent for high speed buffing. In high traffic areas, re-coat worn spots as necessary.

CAUTION: Keep out of reach of children. It is recommended that protective gloves and safety glasses be worn when using this product. Make sure there is adequate ventilation.

Refer to S.D.S. for additional safety information.
