

VAPOR EXTRACTION SHAMPOO

- Traffic lane pre-spotter
- Spring fresh scent
- Dullite up to 1:128
- Extraction cleaning, bonnet cleaning

LYNX® VAPOR EXTRACTION SHAMPOO is a highly concentrated, heavy duty alkaline carpet cleaner that is specifically formulated to remove grease, oil and soil from older, easily soiled carpets. Formulated with synthetic wetting agents, solvents, water softeners, optical brighteners, and anti-foaming agents. Leaves a nice fresh scent.

DIRECTIONS: Do not use on stain-resistant carpets.

Hot water extraction: Dilute 1 ounce to each gallon of water in the solution tank. For heavily soiled carpets use 2 oz./gal.

For hard water use the dilution chart below:

<u>Dilution</u>	<u>Water Hardness</u>	
<u>oz/gal</u>	<u>ppm</u>	<u>grains</u>
1	0-150	0-9
2	150-250	09-14.5
3	250-350	15-20.5
4	350-450	20.5-26

If the value of water hardness is unknown, start with 1 oz./gal. and check the solution for clarity. If slightly cloudy, add enough concentrate to clear the solution. For traffic lane pre-spotting, use 2 ounces per gallon.

Bonnet cleaning: Although this product has been formulated specifically for steam extraction, it is also a good bonnet cleaner when used in accordance with the directions below. Dilute as above, and spray approximately 100 sq. ft. at a time, holding sprayer 12" to 16" above carpet. Avoid soaking carpet. Dampen bonnet pad with water, do not soak. Spray bonnet with cleaning solution and place bonnet under machine on carpet, sprayed-side down. Buff carpet over sprayed area, turning the pad over or changing it when heavily soiled. Allow carpet to dry for 30 minutes to an hour, then vacuum thoroughly.

NOTE: If furniture must be replaced before carpet is dried, place cardboard strips under furniture legs.

DANGER: Keep out of reach of children. Read label and SDS before use. Causes severe skin burns and eye damage. May be corrosive to metals.

Refer to S.D.S. for additional safety information.

TYPICAL PROPERTIES:

Specific Gravity:..... 1.1
pH:..... 12.5
Total Alkalinity (as Na₂O):..... 4.2%
Appearance:..... Light blue liquid
Odor:..... Pleasant

Manufactured by:
ABC COMPOUNDING COMPANY, INC.
ATLANTA, GA/DALLAS, TX
