

SOUR Highly Concentrated

Lynx® Sour is a highly concentrated liquid laundry sour designed to neutralize the pH of the finished wash to a comfortable level which will not irritate skin. Removal of excess alkalinity also helps to minimize the graying or yellowing of fabric. This product helps to suspend iron and rust to prevent staining, as well as removes previous rust and iron stains.

This product contains a chelating agent which removes hard water ions and solid precipitate that can encrust washing machines and clog drainage pipes.

Use in front load or top load machines equipped with automatic dosing systems.

DIRECTIONS

Sort laundry by color and fabric type. From fabric care directions, choose proper wash cycle and water temperature. Do not overload washer with laundry. Add Royal Sour during the final rinse cycle. Use 1 – 2 oz. per 50 lbs. of dry laundry. Check pH of wash water at the end of the final rinse stage before water drains. Fiber and wash water pH should be 5.5 – 6.5. Adjust usage level of Lynx® Sour accordingly.

DO NOT USE WITH OR STORE NEAR CHLORINE BLEACH.

DANGER: Keep out of reach of children. Read label and SDS before use. Causes severe skin burns and eye damage. May be corrosive to metals.

Refer to SDS and product label for additional safety information and directions for use.

TYPICAL PROPERTIES:

Acidity: 33%
Specific gravity: 1.14
Appearance: Clear Colorless
Odor: Acid

FEATURES

- Removes excess alkalinity
- Minimizes graying and yellowing
- Prevents and removes iron stains
- Prevents machine encrustation

BENEFITS

- Suitable For Automatic Dispensers
